

# Device Transfer API

---

Use this URL to re-assign your subscription to another Android device; as you cannot have the same subscription running on multiple devices.

- **URL**

`http://smartruckroute.com/lookup/reactivate.php?order_id=myOrderId&email=myEmail@gmail.com&package=com.teletype.smartruckroute`

- **Url Params**

```
order_id=[string]
email=[string]
package=[string]
```

- **Sample Url:**

`http://smartruckroute.com/lookup/reactivate.php?order_id=9000&email=Rick@gmail.com&package=com.teletype.smartruckroute`

- **Notes:**

Parameter "order\_id" is the order id of the subscription. "Email" is the email associated with that subscription. "Package" is the app package for SmartTruckRoute.
